Ten Years of Friendship

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Ten years together and still inseparable: their favorite window seat, a slow chin rub, a gentle brushing for both, a short garden stroll and lying together on the porch in the evening.

TIMELINE

0-5s	Favorite window seat
5-10s	Chin rub
10-15s	Gentle brushing
15-20s	Garden stroll
20-25s	Evening porch

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 11-year-old female long-coat black-and-tan German Shepherd with a grey muzzle and grey around the eyes, a little thinner fluffy coat, moving slowly and gently, wearing a faded yellow collar with a small round tag. 0-5s (Favorite window seat): Living room, soft morning daylight through a large window, a low cushioned window bench. The senior dog lies on the floor cushion below the window and an old orange tabby cat with white paws, a thinner coat and slower moves sits on the bench above her, both looking outside. Sound: quiet house, birds outside, a slow tail thump. 5-10s (Chin rub): Same living room, gentle daylight, beige carpet. The old orange tabby cat with white paws steps slowly down from the bench and rubs her cheek along the senior dog's grey muzzle. The dog lifts her chin a little and lets the cat rub under it. Sound: soft purring, a quiet dog grunt, owner whispers "ten years". 10-15s (Gentle brushing): Kitchen floor, ordinary daylight from the back door, beige tiles. The owner's hand slowly brushes the senior dog's thinner fluffy coat with a soft brush while she lies on a towel. The old orange tabby cat with white paws lies beside her waiting for her turn. Sound: soft brushing, slow breathing, owner says "you next, old lady". 15-20s (Garden stroll): Small garden, mild cloudy afternoon, lavender bushes and a gravel path. The senior dog walks slowly along the path and the old orange tabby cat with white paws and a thin coat walks beside her at the same slow pace, both pausing to sniff the lavender. Sound: gravel crunching softly, bees humming, light breeze. 20-25s (Evening porch): Back porch in the evening, low warm sunlight across the wooden boards, a soft blanket on the porch floor. The senior dog lies on the blanket and the old orange tabby cat with white paws curls up against her side. The owner's hand rests gently on them both. Sound: crickets starting, slow breathing, owner whispers "ten years of you two".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Favorite window seat

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
