Everyone Needs a Best Friend

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The 100th video: a morning hello with the cat, sharing the sun with the corgi at the park, comforting the owner, watching the street with the cat and all three friends asleep together at night.

TIMELINE

0-5s	Morning hello
5-10s	Park sunbathing
10-15s	Comforting the owner
15-20s	Window watch
20-25s	All asleep together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. 0-5s (Morning hello): Bedroom, early morning soft daylight through curtains, a grey dog bed on the carpet. The dog stands and stretches and an orange tabby cat with white paws and a white chest walks over, headbutts her chin and winds around her front legs. The dog wags slowly. Sound: birds outside, soft purr, owner whispers "morning, best friends". 5-10s (Park sunbathing): Neighborhood park, sunny late morning, wide green grass and a wooden bench. The dog lies in the grass on a long leash and a small Pembroke Welsh Corgi with a red-and-white coat and a blue collar lies right next to her, both squinting in the sun, the owner's sneakers nearby. Sound: kids playing far away, birds, light panting. 10-15s (Comforting the owner): Living room, cloudy afternoon light, the owner sitting on the floor with back against the sofa, point of view looking down at their knees. The dog walks over, lies down and places her head on the owner's lap, looking up gently while the owner's hand strokes her ears. Sound: quiet room, a soft dog sigh, owner whispers "thank you". 15-20s (Window watch): Front window, late afternoon daylight, sheer curtains pulled aside. The orange tabby cat with white paws sits on the windowsill and the dog sits right below her, both watching leaves blow across the quiet street outside, their heads turning together. Sound: wind outside, a car passing, soft purr. 20-25s (All asleep together): Living room at night, ordinary warm lamp light, a thick cream rug. The dog sleeps stretched out, the red-and-white corgi with a blue collar curled against her back and the orange tabby cat with white paws tucked by her chest. The owner's hand switches off the lamp. Sound: soft snores, purring, lamp click, owner whispers "goodnight, my best friends".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Morning hello

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult female long-coat black-and-tan German Shepherd with a black saddle, warm tan legs, chest and face, fluffy longer fur on the ears, neck, chest and tail, gentle eyes, upright ears, wearing a bright yellow collar with a small round tag. Bedroom, early morning soft daylight through curtains, a grey dog bed on the carpet. The dog stands and stretches and an orange tabby cat with white paws and a white chest walks over, headbutts her chin and winds around her front legs. The dog wags slowly. Sound: birds outside, soft purr, owner whispers "morning, best friends".

Clip 2 | 5-10s | Park sunbathing

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
