My German Shepherd's Birthday Party

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

His fifth birthday at home: wearing a party hat, waiting for his dog-safe cake, listening to everyone sing, the first bite, and a birthday nap.

TIMELINE

0-5s	Party hat
5-10s	Waiting for cake
10-15s	Birthday song
15-20s	First bite
20-25s	Birthday nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Party hat): Kitchen, afternoon, daylight from the window, beige tile floor. The dog sits on the floor wearing a small blue paper party hat tied under its chin, slightly crooked between its ears. It looks at the camera, then tries to look up at the hat. Sound: family laughing in the background, owner says "look at you!". 5-10s (Waiting for cake): Same kitchen, afternoon window light. The owner's hands set a small plate on the tile floor with a little dog-safe pumpkin cake topped with plain yogurt. The dog sits very still in front of it, drooling, eyes on the cake, nose twitching. Sound: plate clinking on tile, owner says "wait... wait". 10-15s (Birthday song): Same kitchen, afternoon daylight. The dog sits with the party hat on while the family sings off camera. It tilts its head one way, then the other, ears moving, and its tail sweeps back and forth across the tile. A few colorful balloons are tied to a kitchen chair behind it. Sound: family singing happy birthday off-key, tail swishing. 15-20s (First bite): Same kitchen floor, afternoon light. The owner says okay and the dog dives into the cake, licking the yogurt topping, then taking a big bite, crumbs falling on the tile and yogurt smeared on its nose. It licks the empty plate clean, pushing it across the tile with its tongue. Sound: eager chomping, family cheering, owner laughing. 20-25s (Birthday nap): Living room, late afternoon, softer daylight from the window, an old rug. The dog is asleep on its side on the rug with the paper party hat fallen off next to its head and a little yogurt still on its muzzle. Sound: soft snoring, quiet voices in the kitchen.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
