Our Nightly Bedtime Routine

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Winding down at night: last potty trip in the dark yard, a drink of water, the nightly chew, circling on his bed, and settling down with a big sigh.

TIMELINE

0-5s	Last trip outside
5-10s	Late night drink
10-15s	Nightly chew
15-20s	Circling the bed
20-25s	Settling down

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Last trip outside): Back door at night, dim light from the kitchen spilling onto a small concrete step, dark backyard grass beyond. The dog trots out into the yard, sniffs the grass at the edge of the light, then turns and trots back toward the open door. Sound: crickets, tags jingling, owner says "come on, bedtime". 5-10s (Late night drink): Kitchen at night, only the small light above the stove on, beige tile floor. The dog drinks from a steel water bowl, lapping loudly, then lifts its head with water dripping from its chin onto the floor. The dark window above the sink shows nothing outside, and a dish towel hangs on the oven handle. Sound: lapping water, dripping, fridge humming. 10-15s (Nightly chew): Living room at night, warm light from one table lamp, worn rug. The dog lies on the rug holding a thick rubber chew toy between its front paws, gnawing on it with its back teeth, eyes half closed. A folded blanket sits on the couch behind it and the curtains are closed for the night. Sound: soft chewing, TV muted, a clock ticking. 15-20s (Circling the bed): Bedroom at night, dim bedside lamp, a round grey dog bed on the floor next to the owner's bed. The dog steps into the dog bed, turns in two full circles, paws at the cushion a few times, then drops down with a soft thud. Sound: scratching on fabric, a thud, owner whispering "good night". 20-25s (Settling down): Same bedroom, very dim lamp light. The dog lies curled in its bed with its nose tucked near its tail. It lets out a big sigh, its ear flicks once, and its eyes slowly close as the camera holds still. Sound: a long deep sigh, quiet breathing, lamp click at the end.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Last trip outside

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Back door at night, dim light from the kitchen spilling onto a small concrete step, dark backyard grass beyond. The dog trots out into the yard, sniffs the grass at the edge of the light, then turns and trots back toward the open door. Sound: crickets, tags jingling, owner says "come on, bedtime".

Clip 2 | 5-10s | Late night drink

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
