Throwback to When He Was This Small

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Puppy days throwback: the puppy chasing the owner's feet, chewing a shoelace, tripping over its paws on grass, playing with a squeaky toy, and falling asleep mid-play.

TIMELINE

0-5s	Chasing feet
5-10s	Shoelace attack
10-15s	Grass tumble
15-20s	Squeaky toy play
20-25s	Asleep mid-play

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real 9-week-old German Shepherd puppy, black and tan with fluffy fur, oversized paws and floppy ears that are just starting to stand, wearing a small brown collar. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Chasing feet): Kitchen, morning, bright window daylight, light wood laminate floor. The camera points down at the owner's feet in socks walking slowly. The puppy chases after them in clumsy little hops, slipping slightly on the floor, nipping at a sock. A few kibbles are scattered by a small puppy bowl near the fridge, and a dish towel hangs from the oven door. Sound: tiny paws pattering, puppy growls, owner laughing "ow, ow". 5-10s (Shoelace attack): Front hallway, daylight from the door window, a pair of old sneakers on a doormat. The puppy lies on the mat chewing on the loose shoelace of one sneaker, tugging it back with small head shakes. Its tail wags the whole time and its oversized paws slide on the mat as it pulls. A coat hangs on a hook above. Sound: puppy growling softly, shoelace snapping, owner saying "hey, that is mine". 10-15s (Grass tumble): Backyard, mild afternoon, overcast daylight, short green grass with a few clover patches, wooden fence. The puppy runs toward the camera in a wobbly gallop, trips over its own big front paws, rolls once, and gets right back up. Its floppy ears bounce with every step, and a plastic kiddie toy lies forgotten near the fence. Sound: tiny barks, birds, owner saying "come here, little guy". 15-20s (Squeaky toy play): Living room, afternoon window light, grey rug. The puppy holds a small blue squeaky rubber toy almost as big as its head, chomps it to make it squeak, then pounces on it again with both front paws. Sunlight from the window falls in a patch on the rug, and a few tufts of puppy fur sit on the floor. Sound: squeaking, puppy grunts, owner giggling. 20-25s (Asleep mid-play): Same living room, late afternoon light, grey rug. The puppy lies flat on its belly with the blue squeaky toy still in its mouth, eyes closing, head slowly dropping to the rug until it falls asleep. Its oversized back paws stick out behind it and its tiny belly rises and falls with each breath. Sound: soft puppy breathing, a tiny snore, owner whispering "he is out".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Chasing feet

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
