You Would Think I Was Hurting Him

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Nail trim time: the dog spots the clippers and hides, gets coaxed out with a treat, lies still for one quick clip, sulks, and forgives everything for peanut butter.

TIMELINE

0-5s	Spotting the clippers
5-10s	Hiding
10-15s	Treat coaxing
15-20s	One quick clip
20-25s	Peanut butter forgiveness

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Spotting the clippers): Living room, afternoon, daylight from a window, grey couch, beige carpet. The owner's hand holds up a small pair of dog nail clippers. The dog, lying on the carpet, lifts its head, flattens its ears and slowly gets up and walks away. Sound: owner says "it is nail day", tags jingling, footsteps. 5-10s (Hiding): Hallway, afternoon light from a nearby bedroom door, wooden floor. The dog lies behind the half-open bathroom door with only its head and front paws visible, looking at the camera with big sad eyes and ears back. A towel hangs on the bathroom door and a pair of slippers sits in the hallway. It slowly pulls its head back a little further. Sound: owner laughing "I can see you", a small whine. 10-15s (Treat coaxing): Same hallway, afternoon light. The owner's hand holds out a small dog treat near the floor. The dog slowly stretches its neck forward, takes the treat gently, and then follows the hand a few steps toward the living room. Its ears are still a little back but its tail starts a slow wag as it walks along the wooden floor. Sound: crunching, owner says "see, it is fine". 15-20s (One quick clip): Living room floor, afternoon window light, beige carpet. The dog lies on its side with one front paw held in the owner's hand. The dog turns its head away and sighs loudly as a single small click is heard. A plain towel lies under the paw, and the dog's tail gives a small wag afterward. Sound: one click, a long groan, owner saying "one done". 20-25s (Peanut butter forgiveness): Kitchen, late afternoon light, beige tile floor. The dog licks a rubber lick mat spread with dog-safe peanut butter lying on the floor, tail wagging, completely happy again. The owner's hand holds the edge of the mat so it does not slide. The dog's ears are relaxed, its eyes half closed, and a cabinet door and dish towel are visible behind it. Sound: steady licking, tail thumping the cabinet, owner says "all forgiven?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spotting the clippers

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
