He Insists on Carrying Something

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Moving things in from the car: the dog carries a small canvas bag, a rolled-up newspaper, a light plush pillow, a dog toy, and then proudly lies down with his load.

TIMELINE

0-5s	Canvas bag carry
5-10s	Newspaper fetch
10-15s	Pillow delivery
15-20s	Bringing a toy
20-25s	Proud rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Canvas bag carry): Driveway, afternoon, cloudy daylight, open car door. The owner's hand lowers a small, light empty canvas tote bag. The dog takes the handles in its mouth and trots toward the front door with it swinging. Its tail is high and its head is lifted proudly as it walks. A few dry leaves lie on the driveway near the car tires. Sound: tags jingling, paws on concrete, owner says "you got it?". 5-10s (Newspaper fetch): Front walkway, afternoon, overcast light, rolled newspaper lying on the path near a small hedge. The dog picks up the rolled newspaper in its mouth and carries it up the porch steps. Its tail wags as it climbs, and it pauses at the top step to look back at the camera with the paper still in its mouth. Sound: paper crinkling, footsteps on wood steps, birds. 10-15s (Pillow delivery): Front hallway, daylight from the open door, wooden floor, shoes by the wall. The dog walks in carrying a small light throw pillow in its mouth by one corner, the pillow dragging slightly along the floor. Its head is turned slightly to keep the pillow off its paws, and it heads toward the living room with its tail wagging. Sound: fabric dragging, claws clicking, owner laughing "that is not a bag". 15-20s (Bringing a toy): Living room, afternoon daylight from a window, beige carpet. The dog comes back with a stuffed toy hedgehog and drops it on top of the small pile of things it carried in, then looks at the camera. The pile includes the canvas tote bag, the newspaper and the throw pillow. Its tail wags slowly. Sound: soft thump, panting, owner saying "thanks for the help". 20-25s (Proud rest): Same living room, late afternoon light, beige carpet. The dog lies down next to the canvas tote bag and pillow, resting one paw on the tote bag and its head up, panting, looking pleased with itself. The newspaper and toy hedgehog lie beside it. Sunlight from the window falls across the carpet. Sound: panting, a happy sigh, clock ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
