Watermelon Snack Time

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A summer backyard snack: the dog watches the picnic table, gets seedless watermelon cubes, crunches them on the lawn, begs for more and drips juice everywhere.

TIMELINE

0-5s	Watching the plate
5-10s	First cube
10-15s	Lawn crunching
15-20s	Begging for more
20-25s	Juicy drool

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Watching the plate): Outdoor wooden picnic table in a backyard, late morning, bright summer daylight, a wooden fence behind. A plate of small seedless watermelon cubes with no rind sits on the table. The dog rests its chin on the table edge, staring at the plate, nose twitching. Sound: birds, a fly buzzing, sniffing, owner says "I see you". 5-10s (First cube): Same backyard picnic table, bright late morning daylight. The owner's open palm holds out one small pink seedless watermelon cube with no rind. The dog takes it gently with its front teeth, ears back, and chews with a surprised look as juice drips from its lips. Sound: wet crunching, juicy chewing, owner laughs "good?". 10-15s (Lawn crunching): Green backyard lawn with a few dry yellow patches, bright late morning sun, the wooden fence and a garden hose in the background. The dog lies on the grass holding a watermelon cube between its front paws, chewing it loudly, pink juice wetting its chin. Sound: crunching, birds, a neighbor's radio faintly. 15-20s (Begging for more): Next to the wooden picnic table, bright summer daylight, owner sitting on the bench. The dog sits up straight in front of the camera, juice dripping from its muzzle, lifts one front paw to tap the owner's knee, then sits waiting with ears up and eyes on the plate. Sound: tags jingling, owner says "one more, that's it". 20-25s (Juicy drool): Same backyard, bright summer daylight, patchy grass behind. Close up of the dog's face as it licks its lips over and over, pink watermelon juice on its whiskers and chin, then it shakes its head hard and sends small drops flying toward the camera. Sound: lip smacking, head shake with ears flapping, owner says "ew, thanks".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Watching the plate

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
