Peanut Butter Lick Mat

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm rainy afternoon: the owner spreads dog-safe peanut butter on a lick mat, the dog licks it on the floor, holds it with its paws, licks it clean and naps afterward.

TIMELINE

0-5s	Spreading it
5-10s	Mat goes down
10-15s	Paws hold it
15-20s	Licked clean
20-25s	Calm nap

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Spreading it): Kitchen counter in the afternoon, grey rainy light from a window, wooden cabinets. The owner's hand spreads a thin layer of xylitol-free peanut butter onto a green rubber lick mat with a spoon. The dog's nose pokes up into the frame at the counter edge, sniffing hard. Sound: rain tapping the window, spoon scraping, loud sniffing. 5-10s (Mat goes down): Kitchen floor of light brown vinyl planks, rainy afternoon light, a water bowl by the cabinet. The owner's hand sets the green lick mat flat on the floor. The dog lies down right away and starts licking, its long tongue sweeping across the ridges of the mat. Sound: mat touching the floor, rhythmic licking, owner says "enjoy". 10-15s (Paws hold it): Same kitchen floor, soft grey rainy light from the window. Camera looks down from above: the dog holds the edge of the lick mat down with both front paws, licking with steady focus, eyes half closed, a small smear of peanut butter on the tip of its nose. Sound: steady licking, rain outside, the fridge humming. 15-20s (Licked clean): Same kitchen floor, grey rainy daylight. The dog pushes the now clean green mat across the floor with its nose, gives it one more lick to make sure, then looks up at the camera, licking its lips again and again with its ears relaxed. Sound: mat sliding on the floor, lip smacking, owner laughs "all gone". 20-25s (Calm nap): Living room corner by a rainy window, dim grey afternoon light, a brown plush dog bed on the carpet. The dog lies curled up in the bed, still licking its nose slowly, then rests its chin on the edge of the bed and closes its eyes as rain runs down the glass. Sound: soft rain, slow breathing, a deep relaxed sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Spreading it

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. Kitchen counter in the afternoon, grey rainy light from a window, wooden cabinets. The owner's hand spreads a thin layer of xylitol-free peanut butter onto a green rubber lick mat with a spoon. The dog's nose pokes up into the frame at the counter edge, sniffing hard. Sound: rain tapping the window, spoon scraping, loud sniffing.

Clip 2 | 5-10s | Mat goes down

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
