# Grandpa's Best Friend

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

### VIDEO IDEA

A slow afternoon with Grandpa: the dog greets him at his chair, walks slowly beside him, gets brushed, shares a biscuit and naps at his feet.

### TIMELINE

| | |
|---|---|
| **0-5s** | Greets Grandpa |
| **5-10s** | Slow walk |
| **10-15s** | Getting brushed |
| **15-20s** | Sharing a biscuit |
| **20-25s** | Nap at his feet |

### FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Greets Grandpa): Cozy living room in the afternoon, soft window light, flowered wallpaper and an old brown recliner. An elderly man in a plaid shirt sits in the chair. The dog walks over slowly and rests its head on his knee while his wrinkled hand pats the top of its head. Sound: old clock ticking, tags jingling, grandpa says "there's my boy". 5-10s (Slow walk): Quiet sidewalk in a small neighborhood, mid afternoon, mild overcast daylight, trimmed hedges along the way. The elderly man walks slowly with a wooden cane, holding a loose leash. The dog walks right beside him at the same slow pace, glancing up at him. Sound: slow footsteps, the cane tapping, birds, a dog barking far away. 10-15s (Getting brushed): Back porch in the afternoon, soft daylight, weathered wooden boards and a potted geranium. The elderly man sits on a chair and slowly brushes the dog's back with a wooden-handled brush. The dog stands still, eyes half closed, loose fur drifting down onto the boards. Sound: brush strokes, a soft breeze, grandpa humming. 15-20s (Sharing a biscuit): Same back porch, afternoon light, a small side table with a glass of iced tea. The elderly man holds out a small dog biscuit. The dog sits politely, takes it gently from his fingers and crunches it, tail sweeping across the porch boards. Sound: crunching, tail thumping, grandpa says "gentle, good boy". 20-25s (Nap at his feet): Back in the cozy living room, late afternoon, warm window light. The elderly man is dozing in his brown recliner with his slippers on. The dog lies stretched out on the rug right across his feet, also asleep, its chest rising and falling slowly. Sound: old clock ticking, soft snoring from both, quiet room.

### AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Greets Grandpa

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Make 5 short clips** | Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
