Rainy Day Indoor Games

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

Stuck inside on a rainy day: watching the rain, hide and seek, tug of war, a find-the-treat game and a cozy rest by the window.

TIMELINE

0-5s	Watching the rain
5-10s	Hide and seek
10-15s	Tug of war
15-20s	Find the treat
20-25s	Cozy rest

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Watching the rain): Living room in the morning, dim grey rainy daylight, a big window with water running down the glass. The dog stands with its front paws on the low windowsill, staring out at the wet backyard, then turns and looks back at the camera with a small whine. Sound: steady rain, a soft whine, owner says "I know, no park today". 5-10s (Hide and seek): Hallway, grey daylight from a doorway, wooden floor and a runner rug. Camera is the owner peeking out from behind a half-open bedroom door. The dog trots down the hallway sniffing the floor, spots the owner and runs over, tail wagging hard. Sound: owner calls "where am I?", claws clicking, an excited bark. 10-15s (Tug of war): Living room carpet, grey rainy daylight, a couch in the background. The dog pulls hard on a braided rope toy, front legs braced, while the owner's hand holds the other end. The dog shakes its head side to side and growls playfully. Sound: playful growling, rope creaking, owner laughing. 15-20s (Find the treat): Same living room, grey rainy light, three overturned plastic cups in a row on the carpet. The dog sniffs each cup carefully, then knocks one over with its nose and quickly eats the small treat hidden underneath, tail wagging as it moves on. Sound: cups tipping, sniffing, crunching, owner says "good find". 20-25s (Cozy rest): Dog bed by the rainy window, late morning, soft grey daylight. The dog lies curled up on a red plaid blanket inside the bed with the rope toy beside it, eyes slowly closing as rain keeps running down the window glass. Sound: soft rain, slow breathing, a sleepy sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
