Sprinkler Fun

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A hot summer afternoon in the backyard: the sprinkler turns on, the dog bites at the water, runs through it, gets soaked and flops in the wet grass.

TIMELINE

0-5s	Sprinkler starts
5-10s	Biting the water
10-15s	Running through
15-20s	Soaked through
20-25s	Wet grass flop

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Sprinkler starts): Sunny backyard, hot mid afternoon, bright daylight, green lawn with brown dry patches and a chain-link fence. An old oscillating sprinkler on the grass starts spraying in an arc. The dog's ears shoot up and it stares at it, head tilted. Sound: water hissing on, cicadas, owner says "look!". 5-10s (Biting the water): Same backyard, hot sunny afternoon, the chain-link fence and a plastic kiddie slide in the background. The dog stands in front of the sprinkler and snaps at the arcs of water, jaws opening and closing, water splashing off its face and chest. Sound: water spraying, jaws snapping, happy grunts. 10-15s (Running through): Same backyard lawn, bright afternoon daylight, wet grass shining. The dog sprints back and forth through the sprinkler spray, wet grass and water flying up from its paws, tail streaming out behind it as it turns sharply at each end. Sound: paws pounding wet grass, sprinkler ticking, owner laughing. 15-20s (Soaked through): Next to the sprinkler, hot sunny afternoon, the owner's bare feet on the wet grass. The dog stands completely soaked, fur slicked flat and dripping, tongue out, then trots right up to the camera and shakes cold water everywhere onto the owner. Sound: water spray, ears flapping, owner squeals "cold!". 20-25s (Wet grass flop): Same backyard, late afternoon sun, soggy green lawn with puddles in the low spots. The dog flops onto its side in the wet grass next to the turned-off sprinkler, panting happily, grass clippings stuck all over its legs and belly. Sound: panting, dripping, birds, cicadas buzzing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Sprinkler starts

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
