Morning Coffee on the Porch

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet early morning on the front porch: the dog follows the owner out, sits beside the chair, watches the street, gets a few pets and dozes in a patch of sun.

TIMELINE

0-5s	Out the door
5-10s	Beside the chair
10-15s	Watching the street
15-20s	Morning pets
20-25s	Dozing in sun

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Out the door): Front door of a small house, early morning, soft cool daylight, a wooden porch with a faded welcome mat. The owner's hand holds a white coffee mug as the door swings open. The dog slips out past the owner's slippers onto the porch, nose already sniffing. Sound: door creaking, birds chirping, owner yawns. 5-10s (Beside the chair): Same front porch, early morning, pale soft light, a wooden rocking chair and a small side table. The owner sits down, mug resting on the armrest. The dog sits right beside the chair and leans its shoulder against the owner's leg. Sound: chair creaking, a sip of coffee, birds. 10-15s (Watching the street): Front porch, early morning, a quiet street and lawns in front, light mist over the grass. The dog lies at the top of the porch steps with ears up, watching a jogger pass far down the road, nose twitching and tail still. Sound: distant footsteps, birds, a sprinkler ticking next door. 15-20s (Morning pets): Same wooden porch, morning light getting warmer, the rocking chair beside the door. The owner's free hand reaches down and scratches the dog behind the ears. The dog tilts its head into the hand, eyes closing, and leans its weight against the chair. Sound: soft scratching, a content sigh, owner says "good morning, buddy". 20-25s (Dozing in sun): Front porch boards, mid morning, a patch of soft sunlight falling across the wood. The dog lies stretched out in the sunny spot, eyes closed, ears twitching at the birds, right next to the owner's slippers and the coffee mug on the floor. Sound: birds, a car passing quietly, slow breathing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Out the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
