Best Friends With the Mail Carrier

25 seconds | 5 activities | Real phone-video look | 9:16 Reel

VIDEO IDEA

The best part of his day: waiting by the door, greeting the mail carrier, his daily biscuit, ear scratches on the porch and watching his friend walk away.

TIMELINE

0-5s	Waiting by the door
5-10s	The greeting
10-15s	Daily biscuit
15-20s	Ear scratches
20-25s	Watching him go

FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Waiting by the door): Front hallway, sunny spring midday, daylight through the narrow glass panel beside the front door, wood floor, a basket of shoes. The dog sits facing the door with its ears up, tail sweeping the floor, head tilting as it listens to footsteps outside. Sound: footsteps on the porch, tail swishing, owner says "is he here?". 5-10s (The greeting): Front porch, sunny spring midday, potted plants on the steps. The owner opens the door and the mail carrier, a smiling man in a plain light blue shirt and shorts with a mail bag, crouches down as the dog trots out to him wiggling its whole body. Sound: door opening, tags jingling, mail carrier says "hey, buddy!". 10-15s (Daily biscuit): Same front porch, sunny midday. The mail carrier holds out a small dog biscuit from his shirt pocket. The dog sits right away, takes the biscuit gently from his fingers and crunches it, crumbs falling on the porch boards. The owner's slippers are visible at the edge of the frame. Sound: crunching, mail carrier says "good sit". 15-20s (Ear scratches): Front porch, sunny spring midday. The mail carrier scratches behind the dog's ears with one hand, and the dog leans into his knee with its eyes half closed and its tail wagging slowly. A few loose hairs drift off its coat in the sunlight onto the porch boards. Sound: birds, happy groan from the dog, owner laughing. 20-25s (Watching him go): Front porch steps, sunny midday, quiet street behind. The mail carrier walks away down the sidewalk with his bag. The dog sits on the top step beside the owner's legs, watching him leave, tail wagging slowly on the step. Its ears perk up once when he waves goodbye. Sound: footsteps fading, mail carrier calls "see you tomorrow, buddy".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (recommended)

Make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Waiting by the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
