FULL 25-SECOND PROMPT (only if your tool can make 25s in one go)

A 25-second shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male German Shepherd with a black saddle, tan legs and tan face, slightly darker muzzle, upright ears, wearing a worn brown leather collar with a small metal tag, natural slightly messy coat with a little loose fur on the shoulders. It shows 5 short everyday moments joined with simple hard cuts. 0-5s (Play bow): Backyard lawn, sunny early evening, thick green grass, a wooden swing set behind. Dad, a man in a grey t-shirt and jeans, kneels on the grass. The dog drops into a play bow in front of him, front legs low and rear up, then bounces side to side. Sound: playful barks, dad saying "come on then". 5-10s (Gentle pushing): Same backyard lawn, sunny early evening. Dad lightly pushes the dog's shoulder with his hand, the dog springs back, then hops in again and paws at his arm, its mouth open and relaxed, tail wagging. Dad's knees have grass stains and a few blades stick to the dog's fur. Sound: dad laughing, play growls, grass rustling. 10-15s (Belly rubs): Backyard grass, early evening sun. The dog flops onto its back in the grass with its legs kicking, while dad rubs its belly with both hands and the dog gently mouths at his sleeve. Its back leg kicks a little when dad finds the right spot. Sound: happy grunts, dad saying "you're a big baby". 15-20s (Rope tug): Backyard lawn, sunny early evening. Dad holds one end of a thick knotted blue rope toy and the dog pulls the other end backward, growling playfully, its back paws digging into the grass. Dad lets the dog pull him forward a few inches across the lawn. Sound: playful growling, rope creaking, dad grunting. 20-25s (Resting together): Backyard grass, early evening, long shadows from the swing set. Dad lies flat on his back in the grass and the dog lies beside him panting, resting its head on his chest. Filmed from mom's view standing nearby. Dad's hand rests on the dog's back. Sound: panting, crickets starting, mom says "who won?".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Make 5 short clips	Generate each clip (5 seconds) separately with its own prompt, then join them in CapCut with simple hard cuts. If your tool can make 25 seconds at once, use the full 25s prompt instead.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
