His Good Morning Kisses

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Every morning starts with kisses: under the blanket, in the kitchen, after his big stretch, out on the dewy grass and one last kiss goodbye at the door.

TIMELINE

0-5s	Nose under the blanket
5-10s	Kitchen kisses
10-15s	Stretch then kiss
15-20s	Dewy grass kiss
20-25s	Goodbye kiss

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Nose under the blanket): Bedroom at dawn, pale grey daylight coming through thin white curtains, rumpled blue duvet. Camera is the owner's point of view from the pillow. The dog pushes his long nose under the edge of the duvet, finds the owner's chin and gives two quick licks, his fluffy ears brushing the blanket. Sound: duvet rustling, sniffing, owner's sleepy laugh saying "good morning to you too". 5-10s (Kitchen kisses): Small kitchen in the morning, daylight from the window over the sink, white cabinets and a coffee maker on the counter. The owner, in grey socks, crouches down with a mug in one hand, and the dog licks the owner's free hand and wrist over and over, tail sweeping across the beige tile floor. Sound: coffee maker gurgling, licking, tail thumping a cabinet. 10-15s (Stretch then kiss): Hallway with a long striped runner rug, morning daylight from an open bedroom door. The dog stretches into a deep bow with his front legs out and fluffy rear in the air, yawns with a squeak, then walks up and licks the owner's knee, looking up at the camera while his tail wags. Sound: squeaky yawn, claws on the floor, owner says "there it is". 15-20s (Dewy grass kiss): Backyard just after sunrise, cool pale light, wet grass with dew, wooden fence and a plastic watering can by the steps. The owner crouches on the grass, and the dog trots over with damp paws and gives a big lick on the owner's cheek, his long chest fur slightly damp and messy. Sound: birds chirping, wet grass swishing, owner laughs "cold nose". 20-25s (Goodbye kiss): Front entryway, morning daylight through the door's small window, coat hooks and a shoe rack. The owner sits on a low bench putting on work shoes, and the dog leans in and licks the owner's ear, then sits close with his ears back and tail swaying, watching the owner stand up. Sound: shoe being pulled on, licking, owner says "okay, one more".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
