MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Do not stop): Living room in the afternoon, daylight through half-open blinds, grey sofa. The dog sits on the floor beside the sofa while the owner pets his neck. The owner's hand stops and rests on the cushion, and the dog lifts one front paw and places it gently on top of the owner's hand. Sound: quiet room, a soft huff, owner says "oh, I'm not allowed to stop?". 5-10s (Paw at breakfast): Small dining table in the morning, daylight from the window, plate with toast and a mug of tea. Camera looks down past the table edge. The dog sits beside the owner's chair and rests one big fluffy paw on the owner's knee, staring up with ears soft and back, waiting patiently. Sound: mug set down, owner chuckling "this is my breakfast". 10-15s (Paw check): Living room rug in the evening, ordinary floor lamp light. The dog lies on his side on a faded patterned rug. The owner's hand gently holds his front paw and looks between the furry toes, and the dog stays relaxed, then curls his paw softly around the owner's fingers. Sound: soft breathing, owner says "all good, good boy". 15-20s (Porch at dusk): Front porch at dusk, plain porch light just switched on, wooden boards and a doormat. The owner sits on the top step with one hand resting on a knee. The dog sits beside the owner, lifts his paw and lays it on the owner's hand, then leans his head on the owner's shoulder. Sound: crickets, distant dog barking, porch light buzzing faintly. 20-25s (Bedtime paw): Bedroom at night, dim bedside lamp, the dog lying on a large grey dog bed on the floor beside the bed. The owner's hand reaches down from the mattress and the dog rests his paw on it, eyes closing. The owner's thumb strokes the fur on his paw as he drifts off. Sound: quiet room, slow breathing, owner whispers "night night".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
