Our Sunday Walk Ritual

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Same walk every Sunday morning: waiting by the door, the quiet empty street, a stop outside the bakery, the loop around the pond and a rest on our bench.

TIMELINE

0-5s	Waiting by the door
5-10s	Quiet empty street
10-15s	Bakery stop
15-20s	Pond loop
20-25s	Our bench

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Waiting by the door): Entry hallway, Sunday morning, soft daylight through the frosted glass in the front door, leash hanging on a wooden hook. The owner's hand takes the leash off the hook and the dog sits right away, fluffy tail sweeping the floor side to side, eyes locked on the leash. Sound: leash jingling, tail swishing on the floor, owner says "you know what day it is". 5-10s (Quiet empty street): Residential street early Sunday morning, overcast and calm, parked cars, small front lawns and no people around. The dog trots beside the owner's legs on a loose leash, his long fur bouncing with each step, sniffing a lamppost base before catching up again. Sound: footsteps, birds, a sprinkler ticking in a yard. 10-15s (Bakery stop): Sidewalk outside a small corner bakery, morning overcast light, plain shop window out of focus. The owner stands holding a paper coffee cup, and the dog sits on the sidewalk next to the owner's sneakers, nose lifted, sniffing the air coming from the open bakery door. Sound: door bell chiming, muffled chatter, sniffing, owner says "not for you". 15-20s (Pond loop): Paved path around a small park pond, breezy cloudy morning, reeds along the water and a few ducks far out. The dog walks ahead on the path, and the breeze lifts the long fur on his tail and back legs. He glances at the ducks, ears forward, then keeps walking. Sound: wind, ducks quacking far away, footsteps on pavement. 20-25s (Our bench): Old wooden park bench under a large tree, cloudy morning light, damp grass. The owner sits and pours water into a collapsible bowl on the ground. The dog laps noisily, then lies down at the owner's feet with his chin on a paw, watching the path, completely content. Sound: water pouring, loud lapping, a big content sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
