MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Sock at the door): Front door of an apartment, early evening, hallway ceiling light. Camera is the owner's point of view pushing the door open. The dog is standing right there holding a grey sock in his mouth, tail wagging so hard his whole back end sways, little muffled grumbles coming out. Sound: keys jingling, door creaking, muffled happy grumbling. 5-10s (Presenting the sock): Apartment entryway, evening ceiling light, wooden floor and a shoe mat. The dog walks in a small circle and then drops the slobbery sock right on top of the owner's shoes, looking up at the camera with ears back and his fluffy tail waving. Sound: soft plop, tags jingling, owner says "thank you, is this mine?". 10-15s (Second gift): Apartment hallway, evening lamp light from the living room. The dog runs off around the corner and trots back holding a worn yellow plush duck by its neck. He pushes it into the owner's hand and stands there wiggling, eyes bright. Sound: claws on the floor, a squeak from the duck, owner laughs. 15-20s (Slipper delivery): Living room doorway, evening, ordinary lamp light, beige carpet. The dog comes back a third time carrying one blue slipper gently in his mouth and drops it at the owner's feet. He sits, chest fur puffed, waiting for praise, tail thumping the carpet. Sound: tail thumping, owner says "where is the other one?". 20-25s (Lying on the pile): Apartment hallway floor, evening ceiling light. The owner sits on the floor next to a small pile of the sock, duck and slipper. The dog lies down right on top of the pile, rolls half onto his side and puts his head on the owner's knee with a loud sigh. Sound: a loud sigh, owner laughing "best welcome ever".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
