Sharing an Afternoon Nap

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A lazy afternoon nap together on a quiet day: settling in, the sun patch, sleepy sighs, dream paddles and waking up side by side.

TIMELINE

0-5s	Settling in
5-10s	Sun patch
10-15s	Sleepy sigh
15-20s	Dream paddles
20-25s	Waking up together

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Settling in): Living room in the afternoon, warm daylight through a large window, beige sofa with throw pillows. The owner lies down on the sofa and the dog lies on the rug right beside it, then rests his chin on the edge of the sofa cushion next to the owner's arm, blinking slowly. Sound: sofa creaking, a dog yawn, clock ticking. 5-10s (Sun patch): Same living room, afternoon sun falling in a wide stripe across the wooden floor. The dog lies stretched out in the sunlight, his sable fur showing grey and brown tips. The owner's arm hangs down from the sofa and the hand rests lightly on his fluffy side. Sound: quiet, a bird outside the window, slow breathing. 10-15s (Sleepy sigh): Close shot of the dog's face resting on the wooden floor in afternoon window light. His eyes slowly close, his fluffy ear twitches once at a small noise, and he lets out a long sigh that puffs his cheeks a little. The owner's fingers move gently in the fur on his head. Sound: long sigh, faint traffic far away. 15-20s (Dream paddles): Living room floor beside the sofa, soft afternoon light now dimmer and cloudy. The dog is fast asleep on his side, his paws twitching and paddling a little as if running in a dream, lips fluttering. The owner's hand rests on his ribs to keep him calm. Sound: tiny muffled woofs, soft paw scratches on the floor, owner whispers "shh". 20-25s (Waking up together): Living room in late afternoon, soft grey daylight, blanket half off the sofa. The owner sits up and the dog stands, does a long front stretch with a squeaky yawn, then walks over and drops his head onto the owner's lap, eyes still sleepy. Sound: squeaky yawn, tags jingling, owner says "good nap?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Settling in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Living room in the afternoon, warm daylight through a large window, beige sofa with throw pillows. The owner lies down on the sofa and the dog lies on the rug right beside it, then rests his chin on the edge of the sofa cushion next to the owner's arm, blinking slowly. Sound: sofa creaking, a dog yawn, clock ticking.

Clip 2 | 5-10s | Sun patch

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
