He Waits Outside the Bathroom Door

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

I cannot even go to the bathroom alone: he lies across the doorway, sniffs under the door, waits patiently, greets me like I was gone for hours and follows me to the next room.

TIMELINE

0-5s	Across the doorway
5-10s	Nose under the door
10-15s	Patient waiting
15-20s	Big reunion
20-25s	On to the next room

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Across the doorway): Upstairs hallway, morning, daylight from a small window, light grey carpet. The bathroom door is half closed. The dog walks up and flops down right across the doorway with a thud, his fluffy tail blocking the hall, and looks at the closing door with ears up. Sound: soft thud, a sigh, owner from inside saying "really?". 5-10s (Nose under the door): Inside a small bathroom, morning daylight through a frosted window, white tile floor and a bath mat. The camera points at the gap under the closed door. A black nose and two fluffy paws appear in the gap, sniffing loudly and pushing slightly against the wood. Sound: loud sniffing, paw scratching once on the door. 10-15s (Patient waiting): Upstairs hallway, morning daylight. The owner peeks out through a small door gap. The dog is lying on the carpet right outside with his chin on his paws, eyes fixed on the door. When he sees the owner, his eyebrows lift and his tail starts thumping the floor. Sound: tail thumping on carpet, owner whispering "I'm right here". 15-20s (Big reunion): Upstairs hallway, morning daylight. The bathroom door opens fully and the dog jumps up, spins half around and presses against the owner's legs, tail wagging hard and whining softly as if the owner had been gone for hours, his fluffy coat brushing the door frame. Sound: happy whining, tags jingling, owner laughing "it was two minutes". 20-25s (On to the next room): Bedroom, morning daylight through open curtains, unmade bed. The owner walks in and the dog follows right behind, then flops down on the rug at the owner's feet the moment the owner stops, looking up as if to say he is ready for the next room. Sound: claws on the floor, a flop, owner says "my shadow".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Across the doorway

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Upstairs hallway, morning, daylight from a small window, light grey carpet. The bathroom door is half closed. The dog walks up and flops down right across the doorway with a thud, his fluffy tail blocking the hall, and looks at the closing door with ears up. Sound: soft thud, a sigh, owner from inside saying "really?".

Clip 2 | 5-10s | Nose under the door

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
