Cuddles on a Cold Night

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A freezing winter night: coming in from the snowy yard, drying his paws, curling up on a blanket, both under the fleece and his fluffy chest breathing slowly.

TIMELINE

0-5s	In from the snow
5-10s	Towel dry
10-15s	Curling up
15-20s	Under the fleece
20-25s	Slow breathing

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (In from the snow): Back door at night, plain porch light outside, snow falling in the dark yard. The door opens and the dog steps inside with snowflakes caught in his long fluffy coat, gives a big full body shake on the doormat, and snow sprays across the kitchen floor. Sound: wind gust, door closing, body shake, owner says "brrr". 5-10s (Towel dry): Kitchen at night, ordinary ceiling light, tile floor with wet paw prints. The owner kneels and rubs the dog's paws one at a time with an old striped towel. The dog stands patiently, leaning a little into the owner, snow melting into droplets on his fur. Sound: towel rubbing, dripping, owner saying "other paw". 10-15s (Curling up): Living room at night, warm floor lamp light, a thick plaid blanket spread on the rug near a radiator. The owner sits on the blanket and the dog walks in a circle and curls up tight against the owner's side, his fluffy tail wrapping over his nose. Sound: radiator ticking, a blanket rustle, a heavy contented sigh. 15-20s (Under the fleece): Living room floor at night, soft lamp light. The owner pulls a grey fleece blanket over both of them. After a moment the dog's head pokes out from under the blanket next to the owner's shoulder, ears flattened from the fabric, blinking sleepily at the camera. Sound: fleece rustling, owner laughs softly "warm enough?". 20-25s (Slow breathing): Close shot on the living room floor at night, warm lamp light, the dog's fluffy chest and neck fur under the edge of the grey fleece. His chest rises and falls slowly as the owner's hand strokes his neck. His eyes are closed and one paw rests on the owner's arm. Sound: wind outside the window, slow breathing, radiator ticking.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | In from the snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Back door at night, plain porch light outside, snow falling in the dark yard. The door opens and the dog steps inside with snowflakes caught in his long fluffy coat, gives a big full body shake on the doormat, and snow sprays across the kitchen floor. Sound: wind gust, door closing, body shake, owner says "brrr".

Clip 2 | 5-10s | Towel dry

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
