Brushing His Long Fluffy Coat

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A calm evening brushing session on the living room rug: settling down, brushing his back, his fluffy pants, the long tail and the surprising pile of fur at the end.

TIMELINE

0-5s	Settling down
5-10s	Brushing his back
10-15s	Fluffy pants
15-20s	The long tail
20-25s	Fur pile

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Settling down): Living room in the evening, ordinary floor lamp light, an old towel spread on a beige carpet. The owner holds up a wooden slicker brush and the dog walks over, lies down on the towel and rolls onto his side with a soft groan, ready for his brushing. Sound: soft groan, towel rustling, owner says "good, lie down". 5-10s (Brushing his back): Same living room, warm lamp light. The owner's hand pulls the brush in long gentle strokes along the dog's darker sable back. Soft grey undercoat comes away in tufts and sticks to the brush, and the dog closes his eyes and stretches his legs out. Sound: brush bristles swishing, relaxed dog breathing. 10-15s (Fluffy pants): Living room carpet, evening lamp light. The owner brushes the long fluffy fur on the back of the dog's hind legs. The dog lifts his head and looks back at the brush, sniffs it once, then lays his head down again with a sigh. Sound: brushing, a sniff, owner laughing "your fluffy pants". 15-20s (The long tail): Living room carpet, evening lamp light. The owner gently holds the base of the dog's thick tail and brushes the long fur out. The tail gives a few lazy thumps against the carpet halfway through, fur fluffing out wider with every stroke. Sound: tail thumping softly, brushing, owner says "almost done". 20-25s (Fur pile): Living room in the evening, lamp light, a big fluffy pile of grey brown fur on the towel. The dog sits up, sniffs the pile curiously and sneezes, sending a few tufts floating. He then pushes his head under the owner's arm for a hug. Sound: sneeze, owner laughing "we could make another dog".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
