Following Me to the Mailbox

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A 30-second walk to the mailbox is a big daily outing for him: out the door, down the driveway, sniffing the mailbox post, carrying a package back and dropping it inside.

TIMELINE

0-5s	Out the door
5-10s	Down the driveway
10-15s	Sniffing the post
15-20s	Carrying the package
20-25s	Delivered

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Out the door): Front door of a suburban house, late morning, overcast daylight, concrete steps and a potted fern. The owner opens the door and the dog squeezes out first, trotting down the steps beside the owner, tail held high and fluffy, looking back to make sure the owner is coming. Sound: door opening, tags jingling, owner says "just the mail, buddy". 5-10s (Down the driveway): Concrete driveway with cracks and weeds, overcast late morning, a parked silver car to one side. The dog walks right next to the owner's legs, his long coat moving in a light breeze, matching the owner's pace and glancing up at the camera. Sound: footsteps on concrete, breeze, birds. 10-15s (Sniffing the post): Curbside black metal mailbox on a wooden post, overcast daylight, grassy strip and quiet street behind. The owner opens the mailbox lid, and the dog sniffs carefully all around the base of the wooden post, nose working, tail swaying slowly. Sound: mailbox lid creaking, sniffing, a car passing far away. 15-20s (Carrying the package): Front lawn near the driveway, overcast daylight. The owner hands the dog a small soft padded envelope, and he takes it gently in his mouth and carries it proudly back up the driveway with his head held high, fluffy tail wagging. Sound: paper crinkling, footsteps, owner laughing "my little mail carrier". 20-25s (Delivered): Front entryway inside, daylight through the open door, brown doormat. The dog walks in and drops the slightly wet envelope on the doormat, then sits beside it, chest fluffed out, looking up at the owner and waiting for praise, his tail sweeping the mat. Sound: soft plop, owner says "good job, thank you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
