He Guards Me While I Sleep

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His quiet night watch: a bedtime check of the room, lying across the doorway, ears up at a sound outside, moving close to the bed and still being there in the morning.

TIMELINE

0-5s	Bedtime check
5-10s	Across the doorway
10-15s	Ears at a sound
15-20s	Close to the bed
20-25s	Still there

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Bedtime check): Bedroom at night, one bedside lamp on, white walls and a wooden dresser. The dog walks slowly around the foot of the bed, sniffing the corners and the floor by the closet, his fluffy tail low and relaxed, as if checking the room before bed. Sound: soft paw steps on carpet, quiet room. 5-10s (Across the doorway): Bedroom doorway at night, dim hallway night light behind, bedside lamp now off. The dog lies across the doorway facing the hall, head up, ears pointed, the long fur on his neck lit softly by the night light while the house is quiet. Sound: quiet house, refrigerator hum far away. 10-15s (Ears at a sound): Bedroom doorway at night, dim hallway night light. A car drives past outside. The dog lifts his head, ears swiveling toward the window, stays still for a moment listening, then lowers his chin back onto his paws with a soft breath. Sound: car passing outside, a soft huff through his nose. 15-20s (Close to the bed): Bedroom in the middle of the night, very dim light from a streetlamp through the blinds. Camera is the owner's point of view from the pillow. The dog lies on the rug right beside the bed with his chin resting on the edge of the mattress, eyes open, watching calmly. Sound: quiet breathing, faint wind outside. 20-25s (Still there): Same bedroom in the early morning, pale daylight through the blinds. The owner wakes and turns over, and the dog is still lying on the rug beside the bed. He lifts his head, ears softening, and his tail thumps the floor a few times. Sound: tail thumping, birds outside, owner whispers "were you there all night?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bedtime check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Bedroom at night, one bedside lamp on, white walls and a wooden dresser. The dog walks slowly around the foot of the bed, sniffing the corners and the floor by the closet, his fluffy tail low and relaxed, as if checking the room before bed. Sound: soft paw steps on carpet, quiet room.

Clip 2 | 5-10s | Across the doorway

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Bedroom doorway at night, dim hallway night light behind, bedside lamp now off. The dog lies across the doorway facing the hall, head up, ears pointed, the long fur on his neck lit softly by the night light while the house is quiet. Sound: quiet house, refrigerator hum far away.

Clip 3 | 10-15s | Ears at a sound

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Bedroom doorway at night, dim hallway night light. A car drives past outside. The dog lifts his head, ears swiveling toward the window, stays still for a moment listening, then lowers his chin back onto his paws with a soft breath. Sound: car passing outside, a soft huff through his nose.

Clip 4 | 15-20s | Close to the bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
