# He Knows the Sound of My Car

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

Filmed by my partner at home: he hears my car before anyone else, checks the window, waits at the door, greets me in the front yard and walks in pressed against my leg.

## TIMELINE

| | |
|---|---|
| **0-5s** | Ears up |
| **5-10s** | Window check |
| **10-15s** | Waiting at the door |
| **15-20s** | Front yard greeting |
| **20-25s** | Walking in together |

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Ears up): Living room in the late afternoon, soft daylight from the front window, green sofa. The dog is dozing on the rug. Suddenly he lifts his head, ears shooting up and turning toward the window, his eyes wide and alert, even though nobody else heard anything. Sound: quiet room, faint car engine far outside, a partner whispers "here we go". 5-10s (Window check): Front window of the living room, late afternoon daylight through thin white curtains. The dog trots over and pushes his nose between the curtains, looking out at the quiet street. His fluffy tail starts wagging slowly, then faster and faster, hitting the sofa arm. Sound: curtains rustling, tail swishing against the sofa, engine getting closer. 10-15s (Waiting at the door): Front entryway, late afternoon daylight through the small door window, shoe rack and umbrella stand. The dog sits right in front of the door, whining softly, his front paws shifting and tail sweeping the floor back and forth, eyes fixed on the door handle. Sound: soft whining, car door closing outside. 15-20s (Front yard greeting): Small fenced front yard, late afternoon overcast daylight, short lawn and a stone path. The front door opens and the dog trots down the path to the owner, who is walking in from the parked car. He circles the owner's legs, tail wagging, whining happily. Sound: happy whines, gate latch clicking, owner says "hi, did you hear me?". 20-25s (Walking in together): Stone path leading to the front door, late afternoon light. The owner walks toward the house and the dog walks pressed against the owner's leg the whole way, looking up at the owner every few steps, his fluffy tail high. Sound: footsteps on stone, tags jingling, partner laughing "every day".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

### Clip 1 | 0-5s | Ears up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Living room in the late afternoon, soft daylight from the front window, green sofa. The dog is dozing on the rug. Suddenly he lifts his head, ears shooting up and turning toward the window, his eyes wide and alert, even though nobody else heard anything. Sound: quiet room, faint car engine far outside, a partner whispers "here we go".

### Clip 2 | 5-10s | Window check

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. ## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
