Spinning Circles Before Every Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

The leash comes out and he spins: tight circles in the hallway, clipping the leash mid spin, trying to sit still, one more spin on the porch and finally a calm walk.

TIMELINE

0-5s	The leash comes out
5-10s	Clipping the leash
10-15s	Trying to sit
15-20s	Porch spin
20-25s	Calm walk

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (The leash comes out): Entry hallway in the afternoon, daylight through a glass panel by the door, wooden floor and a basket of shoes. The owner lifts a navy leash off a hook, and the dog starts spinning in tight circles, his fluffy tail flying out behind him. Sound: claws scrambling on wood, tags jingling, owner laughing "here he goes". 5-10s (Clipping the leash): Same hallway, afternoon daylight. The owner bends down trying to clip the leash to his collar while he keeps turning in circles. The clip misses twice, and the owner's hand finally catches it while the dog wiggles and pants happily. Sound: leash clip clicking, owner saying "hold still, buddy". 10-15s (Trying to sit): Entry hallway, afternoon daylight. The dog sits on command but his rear wiggles against the floor and his front paws tap. The moment the owner's hand touches the door handle, he pops up and spins once more, fluffy tail swinging. Sound: paw tapping, owner says "sit... sit" then laughs. 15-20s (Porch spin): Front porch in the afternoon, overcast daylight, wooden boards and a doormat. The door opens and the dog steps out, does one more happy spin on the doormat, then shakes his whole fluffy coat and looks up at the owner, ready to go. Sound: door closing, a body shake, birds. 20-25s (Calm walk): Quiet residential sidewalk, overcast afternoon, small trees and parked cars. The dog walks calmly next to the owner on a loose leash, his long fur bouncing with each step. He glances back at the camera with his mouth open in a relaxed pant. Sound: footsteps, light panting, a car passing far away.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The leash comes out

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Entry hallway in the afternoon, daylight through a glass panel by the door, wooden floor and a basket of shoes. The owner lifts a navy leash off a hook, and the dog starts spinning in tight circles, his fluffy tail flying out behind him. Sound: claws scrambling on wood, tags jingling, owner laughing "here he goes".

Clip 2 | 5-10s | Clipping the leash

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
