He Tucks Himself Into Bed

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His bedtime routine: walking to his bed, circling and digging, pushing his blanket into a nest, a little help from me and lights out.

TIMELINE

0-5s	Walking to bed
5-10s	Circle and dig
10-15s	Making the nest
15-20s	A little help
20-25s	Lights out

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Walking to bed): Living room at night, two ordinary table lamps on, a large round grey dog bed in the corner with a folded fleece blanket. The owner says it is bedtime, and the dog gets up from the rug, stretches, and walks over to his bed with a sleepy yawn. Sound: yawn, tags jingling, owner says "bedtime". 5-10s (Circle and dig): Living room corner at night, lamp light. The dog steps into his round bed, turns around in two circles, then scratches at the fleece blanket with his front paws, bunching it up in the middle while his fluffy tail swishes. Sound: scratching fabric, owner chuckling "making it just right". 10-15s (Making the nest): Close shot of the dog bed at night, warm lamp light. The dog pushes the bunched fleece blanket with his nose into a pile against the side of the bed, then flops down on top of it with a heavy thump and tucks his nose into the soft folds. Sound: blanket rustling, a heavy thump, a long sigh. 15-20s (A little help): Living room corner at night, lamp light. The owner's hand pulls the loose end of the fleece blanket over the dog's back and fluffy tail. He opens one eye, thumps his tail twice under the blanket, then settles back down. Sound: tail thumping under fabric, owner whispers "there you go". 20-25s (Lights out): Living room at night. The owner switches off the table lamp and the room goes dim, lit only by a small night light from the hallway. The dog is curled under his blanket, only his ears and nose showing, eyes slowly closing. Sound: lamp switch clicking, quiet room, owner whispering "love you, goodnight".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Walking to bed

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Living room at night, two ordinary table lamps on, a large round grey dog bed in the corner with a folded fleece blanket. The owner says it is bedtime, and the dog gets up from the rug, stretches, and walks over to his bed with a sleepy yawn. Sound: yawn, tags jingling, owner says "bedtime".

Clip 2 | 5-10s | Circle and dig

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
