Chin on the Car Console

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

His favorite car spot is resting his chin on the center console: buckled in the back seat, chin forward, a calm drive, a scratch at the red light and his excitement when we arrive.

TIMELINE

0-5s	Buckled in
5-10s	Chin forward
10-15s	Calm drive
15-20s	Red light scratch
20-25s	We are here

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Buckled in): Parked car in a home driveway, overcast daylight through the windows, grey fabric back seat. The dog sits on the back seat wearing a black padded car harness clipped to the seatbelt. He looks around, then at the camera, tail thumping on the seat. Sound: seatbelt clip clicking, tail thumping, owner says "ready?". 5-10s (Chin forward): Inside the parked car, overcast daylight. Camera from the driver's seat looking back. The dog leans forward from the back seat and rests his chin on the center console between the front seats, fluffy cheeks spreading out, eyes looking up at the owner. Sound: quiet car, owner laughing "that is your spot". 10-15s (Calm drive): Inside the car moving calmly along a quiet tree-lined road, filmed by a passenger, cloudy daylight through the windows. The harnessed dog keeps his chin on the console, blinking slowly as trees pass outside, completely relaxed, his fluffy ears soft and loose. Sound: engine hum, turn signal ticking, soft radio talk. 15-20s (Red light scratch): Inside the car stopped at a traffic light, cloudy daylight. The owner's hand reaches down from the steering wheel and scratches under the dog's chin on the console. He closes his eyes and pushes his chin into the hand, fluffy cheeks squished. Sound: idle engine, owner says "good boy". 20-25s (We are here): Inside the car parked at the edge of a park lot, overcast daylight, trees visible through the windshield. The engine stops and the dog lifts his head from the console, ears shooting up, tail thumping the back seat, looking out the window. Sound: engine off, tail thumping, excited whine, owner says "we're here".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Buckled in

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Parked car in a home driveway, overcast daylight through the windows, grey fabric back seat. The dog sits on the back seat wearing a black padded car harness clipped to the seatbelt. He looks around, then at the camera, tail thumping on the seat. Sound: seatbelt clip clicking, tail thumping, owner says "ready?".

Clip 2 | 5-10s | Chin forward

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
