My Shadow on Errand Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He comes along for every errand: waiting for the keys, the drive-through pickup, the pet supply store, the dry cleaner and flopping on the kitchen floor when we get home.

TIMELINE

0-5s	Waiting for the keys
5-10s	Drive-through pickup
10-15s	Pet store aisle
15-20s	Dry cleaner stop
20-25s	Home and flop

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Waiting for the keys): Kitchen by the back door in the morning, daylight from the window, keys hanging on a wall hook. The owner's hand takes the car keys, and the dog jumps up from the floor, trots over and sits right at the owner's feet, ears up and fluffy tail sweeping. Sound: keys jingling, claws on tile, owner says "yes, you can come". 5-10s (Drive-through pickup): Inside a parked car at a drive-through window on a cool cloudy day, filmed from the driver's seat. The dog sits harnessed in the back seat and pokes his head forward between the seats, sniffing toward the open window with ears forward. Sound: muffled voice from the window, paper bag rustling, sniffing. 10-15s (Pet store aisle): Aisle of a dog-friendly pet supply store, bright ordinary ceiling lights, shelves of plain bags with labels out of focus. The dog walks on a short leash close to the owner's leg, sniffing a basket of chew toys, tail wagging slowly. Sound: store background noise, squeaky toy somewhere, owner says "pick one". 15-20s (Dry cleaner stop): Small dry cleaning shop, ordinary fluorescent ceiling light, a plain counter and plastic-covered clothes hanging behind it, no readable signs. The dog sits calmly by the owner's feet at the counter, looking up at the owner and leaning on the owner's leg. Sound: hangers rattling, a bell on the door, owner says "thank you". 20-25s (Home and flop): Home kitchen in the early afternoon, daylight from the window, beige tile floor and grocery bags on the counter. The dog flops down on the cool tiles with a big sigh, fluffy legs stretched out, still watching the owner unpack with lazy eyes. Sound: paper bags rustling, a big tired sigh, owner laughs "long day, huh?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
