He Came Strawberry Picking With Us

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A morning at a pick-your-own strawberry farm: walking the rows, sniffing plants, getting a small strawberry piece with no stem, resting by the basket, and a home snack after.

TIMELINE

0-5s	Walking the rows
5-10s	Sniffing the plants
10-15s	Strawberry taste
15-20s	Resting by basket
20-25s	Home snack

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Walking the rows): Pick-your-own strawberry farm, sunny morning, long rows of low green plants with straw between them, blue sky. The dog walks on a leash along the straw path beside the owner's legs, sniffing left and right, fluffy tail waving, a small woven basket swinging in the owner's other hand. Sound: straw crunching underfoot, birds, distant tractor hum. 5-10s (Sniffing the plants): Strawberry farm row, bright morning sun, straw on the ground. The owner crouches and picks a red strawberry from a low plant while the dog pushes his nose into the leaves next to the hand, sniffing hard with his ears forward, very curious. Sound: leaves rustling, heavy sniffing, owner says "smell that?". 10-15s (Strawberry taste): Same strawberry row, sunny morning. The owner's hand pulls the green top off a strawberry, breaks it in half and holds out one small piece with no stem. The dog takes it gently, chews with his mouth open, red juice on his lips, then licks his nose and stares at the basket. Sound: soft chewing, lip smacking, owner laughing "just a little one". 15-20s (Resting by basket): End of a strawberry row on short grass, morning sun, the farm field behind. The dog lies on the grass beside a half-full basket of strawberries, looking at it, then at the camera, then back at the basket, but not touching it, his long coat warm in the sun. Sound: birds, light breeze, owner whispers "good boy, leave it". 20-25s (Home snack): Home kitchen, late morning window light, white counter with a bowl of washed strawberries. The owner's hand slices one strawberry into small pieces on a board with the stems already removed, then drops one piece. The dog catches it in the air and chews happily, tail wagging. Sound: knife tapping the board, a snap of jaws, happy chewing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
