Exploring the Rocks by the River

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A summer morning at a calm river: stepping over low dry rocks, drinking from a still pool, finding a stick, resting on a warm rock and splashing in the shallows.

TIMELINE

0-5s	Low rock walk
5-10s	Drinking from a pool
10-15s	Finding a stick
15-20s	Rest on warm rock
20-25s	Splashing in shallows

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Low rock walk): Calm shallow river, sunny summer morning, wide flat grey rocks that sit low and dry along the bank, trees on the far side. The dog steps carefully from one low flat rock to the next, sniffing as he goes, the owner's legs walking right beside him. Sound: calm water trickling, birds, claws scraping softly on rock. 5-10s (Drinking from a pool): Riverside, sunny morning, a small still pool of clear water between low flat rocks at the calm river edge. The dog lowers his head and drinks, lapping noisily, water dripping from the long fur on his chin, then lifts his head and looks around. Sound: loud lapping, dripping water, gentle river sounds. 10-15s (Finding a stick): Gravel and low dry rocks by the calm river, bright morning light. The dog sniffs a gap between two rocks, pulls out a pale smooth piece of driftwood, and trots toward the camera with it in his mouth, tail wagging proudly. Sound: gravel crunching, wood knocking on rock, owner says "what did you find?". 15-20s (Rest on warm rock): Wide flat dry rock beside the calm river, sunny late morning. The owner sits on the rock, legs in view, and the dog lies down beside them with the driftwood between his paws, chewing it gently. The owner's hand rubs the fluffy fur on his neck. Sound: water trickling, chewing on wood, a content sigh. 20-25s (Splashing in shallows): Gravel edge of the calm river, only a couple of inches of clear still water over the pebbles, sunny morning. The dog paws at the water and splashes, pouncing on the ripples and sniffing the surface, his leg fur dripping wet, then trots back onto the dry gravel. Sound: small splashes, playful snort, owner laughing.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
