Countryside Walk Along the Old Stone Walls

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

An overcast countryside walk along old dry stone walls: walking the lane, sniffing the gaps, going through a wooden gate, a light drizzle and a rest on the wall.

TIMELINE

0-5s	Lane walk
5-10s	Sniffing the gaps
10-15s	Through the gate
15-20s	Light drizzle
20-25s	Rest on the wall

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Lane walk): Narrow country lane, overcast grey morning, an old mossy dry stone wall running along one side, green fields beyond. The dog walks on a leash beside the wall ahead of the camera, his fluffy tail swinging, ears turning toward bird calls. Sound: footsteps on the lane, birds, wind over the fields. 5-10s (Sniffing the gaps): Beside the old stone wall, overcast morning light, moss and small ferns in the cracks. The dog pushes his nose into a gap between the stones, sniffing intensely, tail stiffening, then pulls back and sneezes a bit of moss dust off his nose. Sound: intense sniffing, a sneeze, owner says "leave the mice alone". 10-15s (Through the gate): An old wooden field gate set in the stone wall, grey overcast daylight, muddy patch in front of it. The owner's hand swings the gate open and the dog walks through onto the grassy field path, looking back once to check the owner is coming. Sound: gate creaking, latch clanking, squelchy mud. 15-20s (Light drizzle): Open field path beside the stone wall, light drizzle falling, grey sky. Fine raindrops bead on the dog's long sable coat. He stops, gives a full-body shake that fluffs up his fur, then carries on walking ahead on the leash. Sound: soft rain, a loud shake, owner laughs "of course it rains". 20-25s (Rest on the wall): Low section of the old stone wall, damp overcast afternoon, wide green fields behind. The owner sits on the wall, knees in view, and the dog sits on the grass leaning against the owner's legs, the wind moving his damp fur while he looks out over the fields. Sound: wind, distant sheep bleating, a calm sigh.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Lane walk

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
