His First Snowshoe Hike With Me

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A snowshoe hike on a snowy forest trail: bounding through deep snow, walking in the owner's tracks, a face full of snow, a treat break and clearing snow clumps from his fur.

TIMELINE

0-5s	Bounding in snow
5-10s	Following tracks
10-15s	Face in the snow
15-20s	Treat break
20-25s	Snowball fur

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Bounding in snow): Snowy forest trailhead, bright overcast winter morning, deep fresh snow and tall pine trees. The owner's snowshoes step forward in view while the dog bounds through the deep snow ahead, leaping in big hops, snow spraying off his long fluffy coat. Sound: snowshoes crunching, puffing breath, owner laughing. 5-10s (Following tracks): Narrow snowy forest trail, flat white winter light, point of view looking down and ahead. The dog walks in the packed tracks left by the owner's snowshoes, stepping neatly, his breath visible, looking back at the camera now and then. Sound: crunching snow, quiet forest, collar tag jingling. 10-15s (Face in the snow): Snowy clearing among pine trees, bright overcast winter daylight. The dog sniffs the snow, then shoves his whole muzzle deep into it and digs with his front paws, pulling his head out with a white snow beard and snow on his eyebrows. Sound: digging, snorting, owner says "you look like a snowman". 15-20s (Treat break): Snowy forest trail beside a fallen log, cold overcast midday. The owner, wearing thick gloves, takes a dog biscuit from a jacket pocket. The dog sits in the snow, his long fur dusted white, takes the biscuit gently and crunches it. Sound: pocket zipper, crunching biscuit, wind in the pines. 20-25s (Snowball fur): Snowy parking area at the trailhead, late morning, car with an open back door. The dog stands on a mat while the owner's gloved hands pull small ice balls out of the long fur on his legs and belly, and he wags his snowy tail. Sound: ice clumps crunching, owner says "so many snowballs", car engine idling.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Bounding in snow

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
