Snowy Morning at the Cabin

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet winter morning at a cabin: first step onto the snowy porch, lying on the porch mat, bouncing into fresh snow, bringing a stick and drying off by the wood stove.

TIMELINE

0-5s	First step outside
5-10s	Porch mat lounge
10-15s	Into fresh snow
15-20s	Bringing a stick
20-25s	Drying by the stove

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (First step outside): Wooden cabin front door, early winter morning, pale blue daylight, a porch covered in fresh snow. The owner's hand opens the door and the dog steps out onto the snowy porch boards, sniffing the cold air, his breath steaming, ears up. Sound: door creaking, quiet snowy silence, dog sniffing. 5-10s (Porch mat lounge): Cabin porch, cold early morning, snow on the railing and pine trees beyond. Point of view of the owner sitting in a wooden chair holding a steaming mug. The dog lies on a worn porch mat beside the chair, fluffy coat puffed up, watching the snowy trees. Sound: mug set on wood, distant bird, a content sigh from the dog. 10-15s (Into fresh snow): Front of the cabin, pale winter morning light, untouched snow in the yard. The dog trots down the porch steps and bounces into the fresh snow, pouncing and rolling once, snow sticking to his long sable coat. He shakes his head and looks back at the porch, tail wagging. Sound: soft thuds in snow, playful huff, owner laughing. 15-20s (Bringing a stick): Snowy cabin yard, morning light brightening, pine trees around. The dog digs a stick out from under the snow, carries it across the yard and drops it at the bottom of the porch steps, looking up at the camera with his tail wagging. Sound: crunching snow, stick dropping, owner says "okay, one throw". 20-25s (Drying by the stove): Inside the cabin, warm light from a table lamp and a black wood stove with a closed glass door at a safe distance, knotty pine walls. The owner's hands rub the dog's snowy long coat with a striped towel while he leans into it with eyes half closed. Sound: fire crackling softly, towel rubbing, owner says "warm now?".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
