MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Waiting at terminal): Ferry terminal waiting area outside, cloudy morning, grey water and a wooden pier. The dog wears a red dog life vest and a short leash, sitting beside the owner's legs. He watches the white ferry pull in, ears forward, nose twitching at the salty air. Sound: seagulls, ferry horn in the distance, waves against the pier. 5-10s (Walking up the ramp): Metal boarding ramp leading onto the ferry, overcast morning light. The dog in his red life vest walks up the ramp on a short leash, stepping carefully on the ridged metal, sniffing the rails, the owner's legs right beside him. Sound: clanking metal ramp, engine rumble, owner says "good, nice and easy". 10-15s (Wind at the rail): Outer deck of the ferry, cloudy sky, grey open water behind a sturdy white railing. The dog in his red life vest sits on the deck beside the owner, leash held short, the sea wind blowing his long ear fur and neck ruff, eyes half closed. Sound: strong wind, waves, engine hum, seagull calls. 15-20s (Relaxing by a bench): Covered part of the ferry deck, grey daylight, metal benches bolted to the floor. The dog lies on the deck beside a bench in his life vest, leash looped on the owner's wrist, relaxed, watching people's feet pass by. His long coat moves gently in the breeze coming through the open side. Sound: engine rumble, muffled voices, a calm sigh. 20-25s (Arriving): Ferry arrival pier, overcast late morning, the ramp lowered onto a wooden dock. The dog in his red life vest walks off the ramp on his leash, tail up and wagging, sniffing the new pier eagerly as the owner follows. Sound: ramp clanking, seagulls, owner says "we made it!".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
