## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Into the lobby): Hotel entrance, sunny afternoon, glass sliding doors opening into a lobby with a light tile floor and potted plants. The dog trots in on a short leash beside the owner's rolling suitcase, ears up, nose busy with all the new smells. Sound: sliding doors, suitcase wheels rolling, quiet lobby voices. 5-10s (Front desk wait): Hotel front desk, warm lobby lights, wooden counter, no readable signs. The owner's hand rests on the counter while the dog sits patiently on his leash beside the owner's legs. A staff member leans over the counter and smiles at him, and he wags his tail. Sound: keyboard typing, staff says "he's so fluffy", tail swishing on tile. 10-15s (Hallway sniff): Long hotel hallway, patterned carpet, ordinary wall lights, doors on both sides with numbers out of focus. The dog walks ahead on his leash sniffing along the carpet edge, the owner's suitcase rolling beside him. He pauses at one door to sniff the gap underneath, then catches up, fluffy tail swaying. Sound: muffled footsteps, suitcase wheels on carpet, sniffing. 15-20s (Room inspection): Hotel room, afternoon daylight through sheer curtains, a neatly made bed and a desk. The dog walks in, leash still clipped, and sniffs around the room, checking the curtains, the corner of the bed and under the desk, tail swaying. Sound: door closing behind, deep sniffing, owner says "approved?". 20-25s (His own blanket): Same hotel room in the evening, bedside lamps on, curtains closed. The owner spreads a worn grey blanket from home on the carpet by the bed. The dog sniffs it, circles twice and lies down with a sigh, resting his chin on his paws. Sound: blanket rustling, a big sigh, owner says "home away from home".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

## CLIP-BY-CLIP PROMPTS (backup)

#### HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
