Dock Diving Practice Day

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Practice at a dock diving pool: life vest on, waiting on the dock, the big jump, swimming back to the ramp and a huge shake.

TIMELINE

0-5s	Life vest on
5-10s	Waiting on the dock
10-15s	The big jump
15-20s	Swimming back
20-25s	Huge shake

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Life vest on): Outdoor dog sports facility, sunny afternoon, a long blue above-ground pool with a carpeted dock. The owner's hands fasten a yellow dog life vest around the dog, who is wiggling with excitement, tail wagging, staring at the pool. He tries to step toward the water before the last strap is even clipped. Sound: buckles clicking, excited whining, other dogs barking in the distance. 5-10s (Waiting on the dock): Top of the carpeted dock, bright afternoon sun, pool water below. The dog in his yellow life vest sits at the start of the dock, quivering, eyes locked on an orange floating bumper toy in the owner's raised hand. His long tail sweeps the carpet behind him as he waits for the release. Sound: owner says "wait... wait...", panting, splashing from the pool. 10-15s (The big jump): Dock diving pool, sunny afternoon. The owner throws the orange bumper out over the water and the dog in his yellow life vest sprints down the carpeted dock and leaps off the end, landing in the pool with a huge splash. Sound: paws pounding the dock, big splash, owner cheering. 15-20s (Swimming back): Blue dock diving pool, bright afternoon light. The dog swims steadily in his yellow life vest with the orange bumper in his mouth, only his head and vest above the water, then climbs out up the ramp at the side of the pool. Sound: paddling, water dripping, owner says "good boy, bring it". 20-25s (Huge shake): Concrete beside the pool, sunny afternoon. The dog drops the bumper, then shakes hard, water flying from his soaked long coat in all directions toward the camera. The owner wraps a towel over his back. He wags his wet tail, sniffs the bumper again and looks up at the owner for another turn. Sound: loud shake, owner laughing "I'm soaked", water splatter.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
