Tracking Practice in the Field

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A tracking session in a dewy field: putting on the tracking harness, finding the start flag, following the track nose-down, finding the glove and getting his reward.

TIMELINE

0-5s	Harness on
5-10s	Start flag
10-15s	Following the track
15-20s	Finding the glove
20-25s	Reward time

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Harness on): Edge of a mowed field, early morning, dew on the grass, soft grey light. The owner's hands clip a black tracking harness onto the dog and attach a long orange line. He stands alert, nose already twitching toward the field. Sound: buckles clicking, birds, owner whispers "ready to work?". 5-10s (Start flag): Mowed field, early morning, a small orange flag on a thin stick pushed into the wet grass. The dog lowers his nose at the flag, sniffing in circles, then suddenly locks on and leans forward on the line. His fluffy tail goes still and his ears point forward as he starts to move. Sound: deep sniffing, line rustling in grass, owner says "track". 10-15s (Following the track): Open mowed field, early morning, dew sparkling, faint trail visible in the wet grass. The dog walks steadily with his nose down along the trail, the long orange line trailing back to the owner's hand, his fluffy tail held low and still. Sound: constant sniffing, footsteps on wet grass, quiet field. 15-20s (Finding the glove): Far side of the mowed field, morning light growing brighter. The dog reaches a worn brown leather glove lying in the grass, sniffs it, and lies down right next to it, looking back at the owner with his ears up. Sound: owner says "yes! good find!", birds. 20-25s (Reward time): Same spot in the field, morning daylight. The owner kneels beside the dog, gives him several small treats from the hand and rubs the long fur on his chest. The dog wags his whole back end and licks the owner's hand. Sound: treats crunching, happy panting, owner says "so proud of you".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Harness on

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Edge of a mowed field, early morning, dew on the grass, soft grey light. The owner's hands clip a black tracking harness onto the dog and attach a long orange line. He stands alert, nose already twitching toward the field. Sound: buckles clicking, birds, owner whispers "ready to work?".

Clip 2 | 5-10s | Start flag

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
