MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Life vest on): Grassy bank of a calm pond, warm sunny afternoon, cattails along the edge, still water. The owner's hands buckle a bright blue dog life vest onto the dog. He stares at the floating toy in the owner's back pocket, tail wagging. Sound: buckles clicking, frogs croaking, owner says "almost ready". 5-10s (The throw): Pond bank, sunny afternoon, point of view from the owner. The owner throws a floating orange rubber toy out onto the calm water, and the dog in his blue life vest runs to the edge and wades in up to his chest. Sound: splash of the toy, quick paws, water sloshing. 10-15s (Swimming out): Calm pond, sunny afternoon, flat still water. The dog in his blue life vest swims steadily toward the orange floating toy, only his head and vest above the water, and grabs it in his mouth. He turns around in a calm wide circle, the toy held firmly, and heads back toward the bank. Sound: paddling, water rippling, owner cheering "get it!". 15-20s (Bringing it back): Pond bank, warm afternoon sun. The dog swims back, climbs out onto the grassy bank in his life vest with water pouring off his long coat and drops the orange toy right at the owner's feet, looking up for another throw. Sound: water dripping, heavy panting, owner says "good boy". 20-25s (Big shake): Grassy pond bank, sunny afternoon. The dog stands next to the owner's legs and shakes his whole body, water spraying everywhere from his soaked fur and vest. The camera jerks back as drops hit it. Then he picks up the orange toy again and drops it at the owner's feet, tail wagging. Sound: loud shake, owner laughing "why next to me?".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
