Small German Shepherd Meetup in the Park

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

Three German Shepherd families meet at a local park: arriving, a calm line-up at the picnic table, a gentle greeting, a group walk on leash and a shady rest.

TIMELINE

0-5s	Arriving at the park
5-10s	Calm line-up
10-15s	Gentle greeting
15-20s	Group walk
20-25s	Shady rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Arriving at the park): Small gravel parking lot next to a park, bright morning sun and a few clouds, trees in the background. The owner opens the back hatch of an SUV and the dog hops down onto the gravel on his leash, shakes out his long fluffy coat and sniffs the air with his nose high. Sound: car hatch opening, gravel crunching, birds, owner says "here we are". 5-10s (Calm line-up): Grassy area beside a wooden picnic table, morning sunlight through tall trees. Three German Shepherds sit on leash in a loose row, clearly spaced a few meters apart, each next to its owner's legs. The long-coat dog sits in the middle, panting, ears up, watching the others calmly. Sound: panting, people chatting softly, a dog's tag jingling. 10-15s (Gentle greeting): Same park lawn, patchy green grass, dappled morning light. One owner walks a young short-coat German Shepherd closer on a leash. The long-coat dog stretches forward and the two sniff noses, then each other's sides, both tails wagging slowly. The owners keep the leashes loose but short. Sound: sniffing, soft laughter, someone says "easy, good job". 15-20s (Group walk): Paved path through the park, tall oak trees on both sides, bright but slightly hazy morning light. The group walks in a single line, each dog on its own leash beside its owner with plenty of space between them. The camera follows the long-coat dog from behind, his fluffy tail swaying. Sound: footsteps on the path, jingling tags, birds, distant kids playing. 20-25s (Shady rest): Under a large maple tree in the park, cool shade with bright sun on the grass beyond. The dog lies on the grass panting, tongue out, while the owner's hand pours water into a collapsible blue bowl. He drinks, then rests his chin on his paws, watching the other two dogs resting nearby. Sound: water pouring, lapping, panting, quiet chatter.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Arriving at the park

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Small gravel parking lot next to a park, bright morning sun and a few clouds, trees in the background. The owner opens the back hatch of an SUV and the dog hops down onto the gravel on his leash, shakes out his long fluffy coat and sniffs the air with his nose high. Sound: car hatch opening, gravel crunching, birds, owner says "here we are".

Clip 2 | 5-10s | Calm line-up

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
