# Teaching the Neighbor Kid Dog Manners

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

## VIDEO IDEA

Showing the neighbor boy how to meet a dog the right way: sniff the hand first, asking for a sit, a flat-palm treat, a gentle chest scratch and a short leash walk together.

## MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Sniff the hand first): Front yard with short grass and a concrete path, clear late afternoon sun. A boy of about eight holds his closed hand low and still. The dog steps forward on a leash held by the owner and sniffs the boy's knuckles, then wags his fluffy tail. Sound: birds, owner says "let him sniff first, good", soft sniffing. 5-10s (Asking for a sit): Same front yard, late afternoon sun, a bicycle lying on the lawn. The boy stands straight and says sit in a clear voice. The dog looks up at him, pauses, then sits on the grass. The boy's face lights up and he looks back at the owner. Sound: boy says "sit" firmly, owner says "perfect", a car passing. 10-15s (Flat palm treat): Front yard, warm late afternoon light, a wooden fence behind. The boy holds a small dog biscuit on his flat open palm. The dog leans in and takes it gently with his lips, crunching, while the owner's hand rests on the boy's shoulder. Sound: crunching, boy laughs "it tickles", owner says "nice and flat". 15-20s (Chest scratch): Same yard near the porch steps, sun lower and softer. The boy kneels and scratches the dog's fluffy chest instead of patting his head. The dog leans into the scratch, eyes half closed, one back leg lifting a little. The boy grins and keeps scratching gently. Sound: owner says "they love the chest", boy giggles, a dog panting softly. 20-25s (Walking together): Neighborhood sidewalk in front of the houses, evening sun casting long shadows. The boy holds the leash handle with the owner's hand also on it. The dog walks calmly between them, sniffing a lamppost, his tail swaying. The owner's other hand holds a small poop bag roll at their side. Sound: footsteps, tags jingling, boy says "he listens to me".

## AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

## CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

## HOW TO MAKE IT LOOK REAL

| | |
|---|---|
| **Use a real photo** | Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips. |
| **Muse AI: one video** | Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts. |
| **Pick the most natural** | Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face. |
| **Keep the real sound** | Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath. |
| **No filters** | Do not add filters, slow motion or fancy transitions - real home videos don't have them. |
