MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Doorstep arrival): Front door of the house, open to a cloudy afternoon, a welcome mat and potted plant. A man in his fifties with a rolling suitcase stands on the step. The dog stands in the doorway beside the owner's legs, tail wagging hard, sniffing toward him. Sound: doorbell, suitcase wheels on concrete, uncle says "so this is the famous one". 5-10s (Suitcase inspection): Entryway with wooden floor and a coat rack, daylight from the open door. The suitcase stands upright inside. The dog sniffs it from top to bottom, very thoroughly, nose working along the zipper and the wheels, ears twitching. The uncle laughs and watches with his hands on his hips. Sound: loud sniffing, everyone laughing, owner says "he smells the airplane". 10-15s (Big welcome): Same entryway, soft daylight. The uncle kneels on one knee and opens his arms. The dog steps in and leans his whole fluffy body against him, tail swinging, and licks his chin while the uncle laughs and hugs his neck. Sound: uncle laughing, tail thumping on the wall, tags jingling. 15-20s (Backyard ball): Backyard with uneven grass, a wooden fence and a clothesline, late afternoon sun breaking through clouds. The uncle throws a worn orange ball underhand. The dog runs after it, his long coat bouncing, scoops it up and brings it straight back to the uncle's feet. Sound: ball bouncing, running paws on grass, uncle says "good boy". 20-25s (Sofa evening): Living room at night, warm table lamps on, a beige sofa with cushions. The uncle sits on the sofa holding a mug, and the dog lies on the floor pressed against his feet, head resting on the uncle's shoe, eyes closing slowly. Sound: quiet conversation, TV murmuring, a deep sleepy sigh.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
