Neighborhood Clean-Up Walk

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A Saturday neighborhood clean-up walk: gearing up, finding litter, the owner picking it up, waving neighbors and a curbside rest.

TIMELINE

0-5s	Gearing up
5-10s	Finding litter
10-15s	Picking it up
15-20s	Waving neighbors
20-25s	Curbside rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Gearing up): Driveway in front of the house, cool overcast Saturday morning. The owner's gloved hands hold a trash grabber and a green garbage bag. The dog stands on the leash beside the owner's sneakers, sniffing the bag curiously and wagging. Two other neighbors with bags stand at the end of the driveway. Sound: bag rustling, grabber clicking, owner says "let's go help". 5-10s (Finding litter): Grass strip along a neighborhood sidewalk, cloudy morning light, damp leaves. The dog walks with his nose down and stops at a crumpled plastic bottle in the grass, sniffing it and looking up at the camera, ears forward. The owner's sneakers stop right beside him on the grass. Sound: sniffing, cars passing slowly, owner says "good find, leave it". 10-15s (Picking it up): Same sidewalk, overcast daylight, a chain-link fence behind. The owner's grabber picks up the bottle and drops it into the green bag. The dog sits beside the bag and watches, his fluffy tail sweeping the sidewalk. A few dry leaves blow across the sidewalk in the light breeze. Sound: grabber clacking, bottle crinkling into the bag, tags jingling. 15-20s (Waving neighbors): Neighborhood street corner, soft grey morning light. Two neighbors in gloves with their own trash bags wave from across the street. The dog stands on the sidewalk, tail wagging, and lets out a single friendly woof toward them. The owner's gloved hand waves back at them from the right side of the frame. Sound: neighbor calls "morning!", one woof, bags rustling. 20-25s (Curbside rest): Curb near a small community park, clouds starting to break with patches of sun. The full green bag sits on the curb. The dog lies on the cool grass beside it, panting, while the owner's hand pours water into a small bowl. Sound: water pouring, lapping, distant lawn mower.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
