Learning Hand Signal Commands

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A quiet backyard training session using only hand signals: sit, down, stay, come and a big reward.

TIMELINE

0-5s	Silent sit
5-10s	Down signal
10-15s	Hold the stay
15-20s	Come signal
20-25s	Big reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Silent sit): Backyard with patchy grass and a wooden fence, calm overcast late afternoon. The dog stands facing the owner. The owner's open hand moves upward, palm up, without a word. The dog watches the hand closely and sits, ears forward. His fluffy tail rests still on the grass behind him. Sound: birds, wind in the trees, a quiet "yes" from the owner. 5-10s (Down signal): Same backyard, cloudy daylight, a garden hose coiled by the fence. The owner's flat hand moves slowly downward toward the grass. The dog follows the hand with his eyes and lies down, his fluffy chest touching the ground. The owner's sneakers stay planted on the grass in front of him. Sound: distant dog barking, the dog's soft huff, owner whispers "good". 10-15s (Hold the stay): Backyard lawn, overcast late afternoon. The owner holds an open palm toward the dog like a stop sign and steps backward several steps. The dog stays lying down, eyes locked on the owner, his tail twitching once but not moving. Sound: footsteps on grass, a bird chirping, complete quiet otherwise. 15-20s (Come signal): Same backyard, soft grey light. The owner sweeps an arm across the body toward the chest. The dog springs up and trots straight to the owner, his long coat bouncing, and sits right in front of the owner's sneakers. The owner smiles and lowers the arm. Sound: paws on grass, tags jingling, owner says "yes, good boy". 20-25s (Big reward): Backyard near the back porch steps, early evening grey light. The owner kneels and scratches the dog's fluffy chest with both hands, then gives him a small treat. He wags hard and licks the owner's wrist. His long fur is a little damp from the grass. Sound: happy panting, owner laughs "you're so smart", crunching.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | Silent sit

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Backyard with patchy grass and a wooden fence, calm overcast late afternoon. The dog stands facing the owner. The owner's open hand moves upward, palm up, without a word. The dog watches the hand closely and sits, ears forward. His fluffy tail rests still on the grass behind him. Sound: birds, wind in the trees, a quiet "yes" from the owner.

Clip 2 | 5-10s | Down signal

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
