Helping Pick Up My Dropped Keys

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He has learned to pick up dropped keys: the drop by the car, the pickup, delivering them to my hand, a practice round in the living room and a chew reward.

TIMELINE

0-5s	The drop
5-10s	The pickup
10-15s	Delivery
15-20s	Practice round
20-25s	Chew reward

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (The drop): Driveway next to a parked grey car, overcast morning, a few leaves on the concrete. The owner's arms are full with a grocery bag and the keys on a big ring fall onto the concrete with a clink. The dog, standing beside the owner, looks down at them. Sound: keys clinking on concrete, owner sighs "oh no", birds. 5-10s (The pickup): Same driveway, cloudy daylight. The dog lowers his head, sniffs the key ring, then carefully picks it up by the soft leather key fob with his front teeth, his fluffy ears pricked up. The owner's hand stays open and still near him, and the grocery bag rests against the car tire. Sound: keys jingling softly, owner says "get it, bring it". 10-15s (Delivery): Driveway beside the car door, grey morning light. The dog holds the keys in his mouth, steps close and drops them into the owner's waiting open hand. He sits and wags his tail across the concrete. The owner's other arm still holds the grocery bag. Sound: keys landing in a hand, tail swishing, owner says "thank you!". 15-20s (Practice round): Living room with a wooden floor and a beige sofa, afternoon daylight from the window. The owner drops the key ring on the floor on purpose. The dog trots over, picks it up by the leather fob and brings it back to the owner's hand. Sound: keys hitting wood, claws on the floor, owner says "good job". 20-25s (Chew reward): Same living room, softer late afternoon light, the dog's bed in the corner. The dog lies on his bed chewing a long rubber chew toy held between his front paws, his long tail curled around him, looking very pleased with himself. Sound: chewing, a contented grunt, distant traffic.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

Clip 1 | 0-5s | The drop

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. A real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. Driveway next to a parked grey car, overcast morning, a few leaves on the concrete. The owner's arms are full with a grocery bag and the keys on a big ring fall onto the concrete with a clink. The dog, standing beside the owner, looks down at them. Sound: keys clinking on concrete, owner sighs "oh no", birds.

Clip 2 | 5-10s | The pickup

Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
