Show and Tell at the Kids' School

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He visits my daughter's class for show and tell: the school hallway, standing in front of the class, showing a sit, gentle pets from a few kids and leaving across the playground.

TIMELINE

0-5s	School hallway
5-10s	In front of the class
10-15s	Showing a sit
15-20s	Gentle pets
20-25s	Across the playground

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (School hallway): Elementary school hallway with colorful bulletin boards out of focus, lockers and a shiny floor, ceiling lights and daylight from a window at the end. The dog walks on a short leash beside the owner, nails clicking, sniffing toward an open classroom door. Sound: nails clicking, distant kids' voices, a school bell far away. 5-10s (In front of the class): Classroom with small desks pushed back and a carpet area, bright window daylight. About eight kids sit cross-legged on the carpet. My daughter stands beside the dog at the front, holding his leash with the owner, and he sits calmly, ears up. Sound: kids whispering excitedly, daughter says "this is my dog". 10-15s (Showing a sit): Same classroom carpet, bright daylight from big windows. The daughter raises her palm and says sit. The dog sits right away and looks up at her, tail sweeping the carpet, and the kids on the carpet clap. The teacher stands by the whiteboard, smiling and nodding. Sound: daughter says "sit", kids clapping, teacher says "wow". 15-20s (Gentle pets): Classroom, window daylight, a teacher kneeling nearby. One boy at a time steps up and gently strokes the dog's fluffy back while the owner holds the leash. The dog stands still, tail swaying slowly, sniffing the boy's sleeve. The other kids wait their turn on the carpet. Sound: boy whispers "he's so fluffy", teacher says "one at a time". 20-25s (Across the playground): School playground with a climbing frame and wood chips, sunny midday. The dog walks away from the building beside the owner and the daughter, his long tail swaying. He turns back once toward the windows where kids are waving. The daughter swings her backpack as she walks. Sound: kids shouting "bye!" from the windows, footsteps on wood chips, wind.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
