Family Drive to the Countryside

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

A Sunday family drive out of town: buckling his harness, watching the fields go by, stopping on a farm road, a walk along the field and a blanket rest.

TIMELINE

0-5s	Buckling up
5-10s	Watching the fields
10-15s	Farm road stop
15-20s	Field walk
20-25s	Blanket rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Buckling up): Back seat of a family car parked in the driveway, bright Sunday morning sun. The dog sits on the back seat wearing a black harness while the owner's hand clips the car seat belt tether to it. A kid sits next to him, hugging his fluffy shoulder. Sound: tether clicking, car doors closing, kid says "road trip!". 5-10s (Watching the fields): Inside the moving car on a country road, sunny midday with green fields and fences passing outside. The back window is open only a little. The dog sits on the seat looking out, his ear fur ruffling in the light breeze, nose twitching. Sound: engine humming, wind through the window gap, radio quietly playing. 10-15s (Farm road stop): Gravel pull-off on a quiet farm road, bright sun, tall grass and a wooden fence with a field behind. The car door opens and the dog steps out on his leash, stretches his front legs forward with a big yawn and sniffs the gravel. Sound: car door opening, gravel crunching, a cow mooing in the distance. 15-20s (Field walk): Dirt track beside a green field, sunny afternoon with a light breeze moving the grass. The family walks along the track, and the dog trots ahead on a long leash, his fluffy coat and tail lifting in the wind, nose down in the grass. Sound: wind, birds singing, kids laughing, footsteps on dirt. 20-25s (Blanket rest): Picnic blanket spread on grass next to the car, warm late afternoon sun, the field in the background. The dog lies on the edge of the blanket, panting, while a kid lies beside him with an arm across his back. Sound: panting, crickets, mom says "best Sunday ever".

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
