Ring Bearer at Our Small Backyard Wedding

One 25-second video | 5 clips combined | Real phone-video look | 9:16 Reel

VIDEO IDEA

He was the ring bearer at our small backyard wedding: morning brushing, clipping on the ring pouch, walking the grass aisle, delivering the rings and lying by the chairs during the party.

TIMELINE

0-5s	Wedding morning brush
5-10s	Clipping the pouch
10-15s	Down the aisle
15-20s	Delivering the rings
20-25s	Party rest

MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Wedding morning brush): Back porch of the house, bright morning sun, a slicker brush and a small pile of loose fur on the wooden boards. The owner's hand brushes the dog's fluffy chest and neck fur. He stands still, eyes half closed, enjoying it. Sound: brush strokes, birds, owner says "you have to look your best today". 5-10s (Clipping the pouch): Same back porch, morning light, a white bow tied to the railing. The owner's hands clip a small cream fabric pouch onto the dog's navy collar. He sits patiently and sniffs the pouch, his tail sweeping the porch. Guests chat quietly inside the open back door. Sound: small clip clicking, tail swishing, a guest laughs nearby. 10-15s (Down the aisle): Backyard lawn with two short rows of white folding chairs and a simple flower arch, sunny late morning. About fifteen guests sit and turn around. The best man walks the dog down the grass aisle on a short leash, the dog trotting proudly, tail high. Sound: guests saying "aww", soft guitar playing live, paws on grass. 15-20s (Delivering the rings): Under the flower arch in the backyard, bright daylight. The dog sits in front of the couple. The groom kneels, unclips the small fabric pouch from his collar and scratches the dog's fluffy ears while the bride smiles. The guests in the front row lean in to watch. Sound: guests clapping softly, groom whispers "good boy", birds. 20-25s (Party rest): Backyard during the small reception, afternoon sun, string lights and a long table with flowers. The dog lies in the shade under a folding chair, his long tail out on the grass, watching guests' legs walk by, totally relaxed. A guest stops to pat his head. Sound: laughter, glasses clinking, music from a small speaker.

AVOID / NEGATIVE PROMPT (paste into the negative box, or add "Avoid: ..." at the end)

cinematic, slow motion, lens flare, golden glow, dramatic lighting, studio lighting, color grading, film look, perfect shiny fur, glowing eyes, human-like facial expressions, smooth drone or gimbal movement, background music, text, subtitles, watermark, extra legs, extra tail, morphing, warped paws, plastic-looking skin or fur

CLIP-BY-CLIP PROMPTS (backup)

Use these only if Muse AI makes a video shorter than 25 seconds: make each clip separately, then join them in order. Every prompt already includes the same dog and camera wording.

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
