MUSE AI PROMPT - COMBINE ALL 5 CLIPS INTO ONE 25-SECOND VIDEO (copy and paste)

Make ONE single 25-second video by combining these 5 clips in order, 5 seconds each, joined with simple hard cuts into one continuous video. Shot on an iPhone held by the owner, vertical 9:16, 1x lens, handheld with small natural shakes, auto-exposure and autofocus, real-time speed with no slow motion, available natural light only, no color grading, ordinary lived-in home, normal phone video quality - looks like an unedited home video posted on Facebook. The dog is a real adult male long-coat German Shepherd with a sable coat of grey-brown fur with black tips, a darker back, fluffy longer fur on the ears, neck, chest and tail, upright ears, wearing a navy blue nylon collar with a small silver tag, natural fluffy coat that is not perfectly groomed. 0-5s (Secret pouch): Inside a parked car at a lakeside park, late afternoon daylight through the windshield. The owner's hands clip a small dark blue fabric pouch to the dog's navy collar, half hidden in his thick neck fur. The dog sits on the passenger seat, sniffing it. Sound: clip clicking, owner whispers nervously "okay buddy, don't lose it". 5-10s (Lake walk): Paved path along a calm lake, late afternoon sun low over the water, a few trees and benches. The dog walks on a leash beside a young woman in a jacket. The camera is held by a friend walking behind them at a distance. Sound: water lapping, ducks, distant kids, the friend whispering "so close". 10-15s (Trotting to her): Grassy lakeside spot by a bench, warm late afternoon light. The owner lets go of the leash and points. The dog trots over to the woman on the bench, sits in front of her and leans his fluffy neck toward her hand, tail wagging. Sound: owner says "go see her", tags jingling, the woman laughs "what's this?". 15-20s (The surprise): Same bench by the lake, late afternoon sun. The woman finds the pouch on his collar and covers her mouth with her hand. The owner kneels on one knee on the grass beside the dog. The dog looks back and forth between them, wagging. Sound: woman gasps, owner's shaky voice, the friend behind the camera squeals. 20-25s (Happy walk home): Lakeside path in the early evening, soft fading daylight and calm water. The couple walks away holding hands, the dog trotting between them on his leash, his long tail swaying. The woman bends down to kiss the top of his head. Sound: happy laughter, footsteps, ducks, the woman says "best helper ever".

HOW TO MAKE IT LOOK REAL

Use a real photo	Biggest realism boost: use Image-to-Video and upload the same real German Shepherd photo for every clip. Same photo = same dog in all 5 clips.
Muse AI: one video	Paste the full 25-second prompt into Muse AI. It tells Muse AI to combine all 5 clips into ONE 25-second video. If the result comes out shorter, make each clip with its own prompt and join them in order (CapCut) with simple hard cuts.
Pick the most natural	Generate 2-3 versions of each clip and keep the one where the dog moves most naturally. Delete any clip with weird legs, tail or face.
Keep the real sound	Keep the natural sounds (paws, tags, panting, owner's voice). If you add a trending Facebook sound, keep it quiet underneath.
No filters	Do not add filters, slow motion or fancy transitions - real home videos don't have them.
